114447 Dual PoE Power over Ethernet Injector (Midspan)

UBF EDV Handel und Beratung Jürgen Fischer GmbH presents a High PoE Injector (PoE+) with 2x 25W as Midspan PSE device for connecting PoE PD end devices to PoE PD network components like Access Points, media converters and so on. The device is equipped with an integrated power supply for 100V up to 240V AC and can be connected to the mains by a standard cold device cable. An error-prone plug-in power supply is not needed.

Examples of Applications:

Network Device (PoE PD)	Connection	Injector	End Device (PoE PD)
access point	Fast Ethernet	114447002	IP phone
media converter	Gigabit Ethernet	114447102	IP camera

Advantages:

- up to 25W /port
- standards IEEE 802.3at and IEEE 802.3af
- no open RJ-45 slots
- no signal delay
- integrated overvoltage protection
- efficiency min. 80%
- no external power supplies
- operating temperature -25°C up to +50°C
- optional DIN rail mountable
